

Bug-scaping 2003

Practical Conservation Biological Control for Your Farm

Monday, November 17th at the Benton
County Fairgrounds Auditorium, Corvallis, OR.
10:00 - 3:00 P.M.

Admission \$5.00. snacks included.

If you are interested in biological control, then this faire is for you!

Informational and interactive booths on methods used by
bug-scapers to increase beneficial organisms on their
farms:

- ✦ insectary plantings, hedgerows, beetle banks
- ✦ farm planning for biological control
- ✦ local conservation examples by farmers
- ✦ insect biology, ecology and ID and more...

Come join this farmer-to-farmer-to-academics-to-non-profits
faire and help grow a community wide conservation
biological control forum. This is another **BYOB** (bring your
own bug) event sponsored by OSU's State IPM Program,
and Oregon Tilth.
